

# THE LIVING ISLAND

*The living island in oak | natural (oiled)*

## DESCRIPTION

The living island is a highly scalable piece inspired by the Old Kitchen at Burghley House, England.

Made to measure to ensure your living island fits your space perfectly. The simple, utilitarian aesthetic of the living island scales up beautifully, with the open design ensuring it remains elegantly light even at scale.

The entire area under the top is utilised for storage, and we also make stunning 'floating' shelves that incorporate a hanging rail, glass rack and down lighting.
